

## Coronado's Australian Shepherds

### Puppy buyer's questionnaire

Please fill out the questions as honestly as you can, if you don't know just say so. Thank you for your interest in our puppies, we want to be sure our babies go to homes that will love and take proper care of them.

1. What experience do you have with the Australian Shepherd breed?
2. Why did you choose an Aussie?
3. What other pets do you have, breeds, ages, etc?
4. Please describe the living conditions, family lifestyle, that this puppy would have if it lived with you.
5. Aussies are a very energetic breed, mine may be even moreso than most as they are bred for performance, agility, herding, etc. What are your plans for when this puppy comes of age (approx.. 8-12 mos old ) and requires a large amount of exercise daily?
6. A small bio about you and or your family and your relationship with dogs would be nice. The more I learn about you the better.
7. Do you plan on any type of showing with this pup, ie: conformation, obedience, rally, herding, agility, tracking, etc.?
8. Will you have this dog neutered or are you planning on breeding it at some future date?
9. If you plan on breeding it, please go into detail as to your plan for breeding and experience in it?
10. What is the oldest pet that you have owned?

Hopefully by your answers and bio, I will come to know you a little better. Anything you think I should know about you, feel free to include. It's important to us to know that our puppies will be in the right home, a home that will love them for as long as they live because they will love you for as long as they live.
